PROFESSIONAL EXPERIENCE

SEO Executive	Scaleup Ads Agency	Jan 2025 – Present Narayanganj, Bangladesh
- Lead and supervise the cross-functional SEO team to achieve organic acquisition and revenue KPIs across high-growth international e-commerce and B2B client accounts. - Formulated and deployed full-funnel technical search roadmaps, achieving an average +340% increase in organic traffic and moving 140+ high-value commercial keywords into Google Top 3 rankings within 6 months. - Conducted deep-dive diagnostic crawls resolving 1,200+ crawl errors, redirect chains, canonical anomalies, and indexation bottlenecks across enterprise websites. - Engineered and validated custom Schema.org JSON-LD structured data (Product, Organization, FAQ, Article, BreadcrumbList), expanding rich snippet presence and organic CTR across target SERPs. - Collaborated with web developers and content writers to optimize Core Web Vitals and ensure strict compliance with Google Helpful Content and Spam policy updates.		

- Delivered comprehensive 100+ point technical SEO audits, competitive gap analyses, and strategic execution roadmaps for clients across SaaS, e-commerce, and healthcare sectors.
- Spearheaded Core Web Vitals performance overhaul for a B2B SaaS platform, driving **Google Lighthouse performance score to 98/100** and lifting qualified trial signups by **+210%**.
- Orchestrated local SEO optimization and NAP consistency across 60+ business directories, securing **#1 Google Map Pack rankings across 8 major locations** and generating a **+185% lift in direct client inquiries**.
- Conducted keyword cannibalization audits and topic clustering, architecting high-converting pillar pages that expanded total organic search impressions by **+450%**.
- Engineered custom reporting dashboards in Google Analytics 4 (GA4) and Looker Studio, providing stakeholders transparent tracking of conversion funnels, ROI, and keyword velocity.

- Facilitated real-time bilingual communication (English and Bangla) and training coordination for technical cohorts, ensuring pristine instruction delivery and cross-cultural clarity.
- Streamlined educational materials, managed participant feedback loops, and maintained operational continuity across training cohorts.

FEATURED SEO CASE STUDIES & IMPACT

E-Commerce Search Visibility Explosion	+340% Organic Traffic 142 Keywords in Top 3
Restructured product catalog taxonomy, eliminated 1,200+ canonical conflicts, and deployed Product schema markup for an international retailer, converting dormant pages into primary organic revenue drivers.	
Tools: Google Search Console, Screaming Frog SEO Spider, Ahrefs, Schema.org	
B2B SaaS Technical Core Web Vitals & SERP Climb	98/100 Lighthouse +210% Signups #2.4 Avg Position
Optimized JavaScript execution, deferred non-critical resources, and implemented entity-based semantic content mapping to outrank enterprise rivals on high-intent commercial queries.	
Tools: Lighthouse, Google PageSpeed Insights, GA4, SEMrush	
Multi-Location Local SEO Domination	#1 Google Map Pack in 8 Regions +185% Direct Calls
Standardized NAP citations, implemented LocalBusiness JSON-LD markup with geo-coordinates, and optimized Google Business Profiles across multiple branches to capture local patient search intent.	
Tools: Google Business Profile, BrightLocal, Schema.org, Looker Studio	

EDUCATION

2016 – 2019 | Dhaka, Bangladesh

Graduated with a rigorous computational foundation in software engineering, algorithms, data structures, web technologies, and database systems. This background provides an algorithmic advantage in understanding search engine spider crawling behaviors, JavaScript execution pipelines, and ranking heuristics.

LANGUAGES

PROFICIENCIES: English (Fluent Professional Proficiency) • Bangla (Native)
